Website Hackathon

a. We used media screen to make the website responsive in all devices, and also used some compressed images to speed up the loading of website. To animate the we used transitions and hover effect.
b. If given more time , then we can make working complaint form for students , make website more attractive with adding different features like sliders, more informative hall council page , upcoming events with animation ,highlights and banners/posters , achievements in General Championship ,Inter-hall , Inter-IIT and TSG council members from hall ,warden's note.
c.   Visual Studio Code , Bootstrap.
d. Link of website: https://admiring-sinoussi-9c0272.netlify.app/
